CALCLOUD AS IaaS

published on 2018-02-23 00:00 by Kim

Category Cloud Based Services

Sub-Category CalCloud

Article Tag Cloud

Summary calCloud as IaaS in Brief

Attachments CalCloud Infrastructure as a Service test

CalCloud - Infrastructure as a Service (IaaS) provides customers with a private cloud located at the CDT data centers. Using a self-service portal, CalCloud - IaaS customers have on-demand access to a shared pool of computing resources that can be rapidly provisioned and released as virtual machines on a pay-per-use basis. CalCloud - IaaS provides shared virtual infrastructure reduces or eliminates the need for capital expenditures and allows Customers to realize cost savings compared to physical server environments. Options such as server management, increased storage, site-to-site virtual private network devices, backup and restore, file transfer server, RAM and infrastructure disaster recovery (IDR) are available during and after provisioning.

## Published Article:

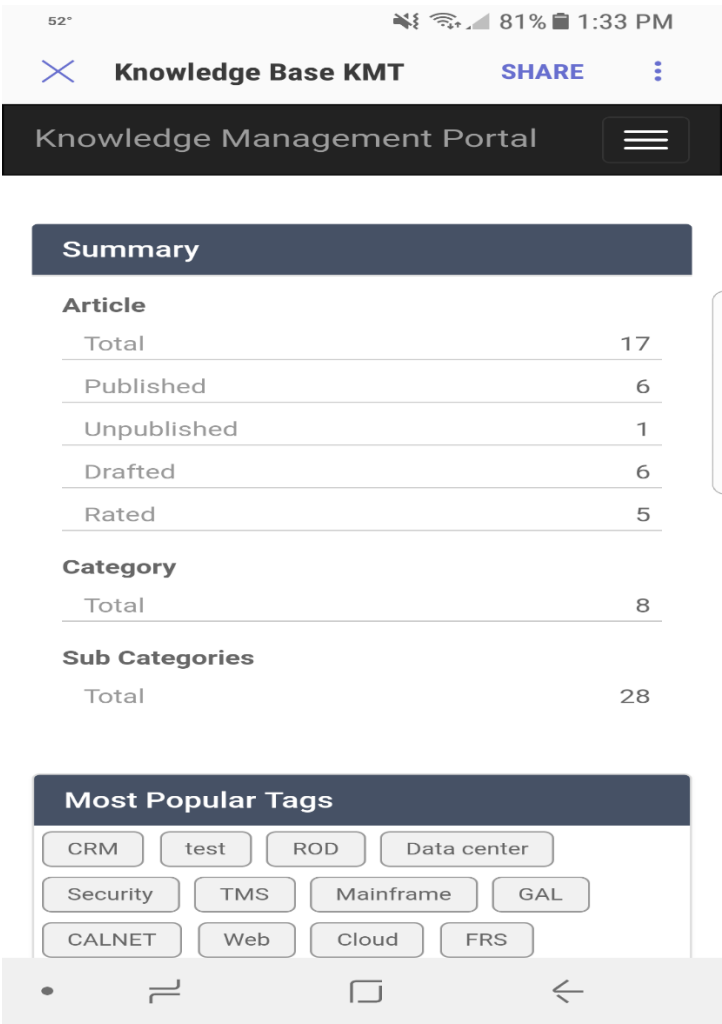

Android mobile view:

Landing page:

## Create new article:

The screenshot shows the 'Create New Article' form in the Knowledge Base KMT app. At the top, there's a status bar with '52°', signal strength, 80% battery, and '1:33 PM'. Below the app title 'Knowledge Base KMT', there's a 'SHARE' button and a menu icon. A blue arrow points to the 'CREATE NEW ARTICLE' header. The form includes two 'Select a' dropdown menus, an 'Article Title' text field, a 'Summary' text field, and a larger 'Enter article content' text area. Below these is an 'Add Tags' field with a plus icon. At the bottom, there's an 'Attachments' section with a 'Choose File' button and a 'No file chosen' message, followed by a 'Save' button. The bottom navigation bar shows a home icon, a list icon, a square icon, and a back arrow.

## Published article:

The screenshot shows a published article in the Knowledge Base KMT app. At the top, there's a status bar with '52°', signal strength, 80% battery, and '1:34 PM'. Below the app title 'Knowledge Base KMT', there's a 'SHARE' button and a menu icon. A blue arrow points to the article title 'MAINFRAME HOSTING'. The article is marked as '[PUBLISHED]'. Below the title, it shows 'posted on 2018-02-23+00:00 by Kim approved by Ben'. The 'Category' is 'Infrastructure and Platform Services', the 'Sub-Category' is 'Mainframe Hosting', and the 'Article Tags' are 'Mainframe'. The 'Summary' is 'Mainframe Hosting in Brief'. Under 'Attachments', there's a link to 'MainframeHosting.txt'. The article text describes the California Department of Technology (CDT) providing a z System (z/OS and Enterprise Linux) hosting platform, including hardware, operating system, network services, and storage systems. It mentions the installation, configuration, and support of the system and application enabling software components that reside on the z System platform. High. The bottom navigation bar shows a home icon, a list icon, a square icon, and a back arrow.
